

I am a resident in San Diego,CA, and currently listen to K-LOVE on FM 100.1. K-LOVE is a family friendly station that has a positive influence in my life, and in the lives of my children. If K-LOVE were to be displaced by an LPFM broadcaster that provided other programming, our community would suffer a great loss. The positive music, friendly radio personnel, and uplifting messages offer hope and encouragement to listeners each day. It's content is a wonderful alternative when compared to many of the other stations in our community. Please keep the K-LOVE signal available in our area. Thank you.
